
Priority Resource Concerns (CPS 420): Terrestrial Habitat for Wildlife & Invertebrates (Pollinators), Degraded Plant Condition
Primary Practice: Wildlife Habitat Planting (Code 420)
State-approved habitat evaluation (WHEG) shows habitat below planning criteria (< 0.50 of habitat potential)
Unresolved Spreadsheet Resource Concerns? (Site Prep/Weeds, Livestock Exclusion, Erosion, Fire/Management)
Site Prep & Invasive Control (CPS 420): Brush Mgmt (314), Herbaceous Weed Treatment (315), Pest Mgmt Conservation System (595), Conservation Cover (327)
Protection & Long-Term Mgmt (CPS 420): Fence (382), Access Control (472), Prescribed Burning (338), Firebreak (394), Prescribed Grazing (528), Early Successional Habitat (647)
Adjunct Structural / Buffer Practices: Critical Area Planting (342), Filter Strip (393), Field Border (386), Hedgerow Planting (422), Tree/Shrub Estab. (612)
Can target habitat be met SOLELY via vegetative management (Burn, Graze, FSI, Weed Mgmt)?
Yes
No - Planting Required
DO NOT USE CODE 420 Use management practices instead (e.g., 338, 528, 666, 314/315, 647)
Is primary goal tree establishment, commercial forage, or erosion control?
Yes
No - Herbaceous/Shrub Habitat
OUT OF SCOPE FOR 420 Use Tree Estab. (612), Forage/Range (512/550), or Critical Area Planting (342)
Select Site Objective & CAPP Narrative Code
Narrative: 00N-CRP-R CRP Re-enrollment: Maintain existing wildlife habitat planting
Narrative: 00N Full Habitat Establishment: Plant herbaceous or shrub cover to meet ≥ 50% potential
Manage existing cover per CRP contract. Schedule disturbance outside primary nesting/brood-rearing season.
Planting Scale & Plant Material Type?
Very Small Area (~1/4 ac / 10,890 sq ft) Potted Plants / Seedlings
Small Area (~1/4 ac / 10,890 sq ft) Herbaceous Plugs
Small Acreage (< 5 ac) Combined Seeding + Plugs/Shrubs
Narrative: 01N Habitat Augmentation: Interplant into existing habitat for missing life-need
Field Scale (Typ. 5 ac) Broadcast / Drill Seeding
Current Land Use: Active Cropland vs. Non-Cropland?
Cropland in Production (Includes Foregone Income)
Fallow / Non-Cropland (No Foregone Income)
Scale & Planting Method for Interplanting?
Species Diversity / Habitat Requirement?
Species Diversity / Habitat Requirement?
Spot Treatment & Hand Planting (Typ. 225 sq ft; e.g., milkweed/shrubs)
Acreage-Scale Interplanting on Cropland (Foregone Income)
Low Diversity
High Diversity
Specialized Habitat
Low Diversity
High Diversity
Specialized Habitat
Scenario 192: Planting with Seedlings ($0.77/sq ft)
Scenario 303: Planting with Plugs ($1.35/sq ft)
Scenario 272: Specialized Seeding and Plugging ($8,514.32/ac)
Scenario 257: Interplanting with Potted Plants or Shrubs ($3.35/sq ft)
Scenario 302: Low Species Diversity on Cropland, Foregone Income ($1,012.70/ac)
Scenario 271: High Species Diversity on Cropland, Foregone Income ($1,595.98/ac)
Scenario 193: Specialized Habitat Req. on Cropland, Foregone Income ($2,362.73/ac)
Scenario 301: Low Species Diversity on Non-Cropland ($406.91/ac)
Scenario 299: High Species Diversity on Fallow or Non-Cropland ($885.06/ac)
Scenario 300: Specialized Habitat Req. on Non-Cropland ($1,862.08/ac)

Operation & Maintenance (O&M): Protect from grazing/mowing during establishment; manage disturbance outside nesting season
